## The day to find out about different careers!

---

The 6<sup>th</sup> of October was a special day for the students of 10<sup>th</sup> class. At this day people from different companies came to our school to present us their jobs.

There were fourteen companies and some of them were Rossmann, Hörmann, AOK, ALDI, TNT and OPEL. Each student had to choose three companies, he wanted to learn more about. Each company made a presentation and explained us that it is very important to have a good school leaving certificate and also good grades to get a job at those companies. They also narrated us what people do during an apprenticeship training. There were lots of different jobs at every company. For some jobs you just need to have a Certificate of Secondary Education, for some others a General certificate of Secondary Education and for some others you need to have passed the senior classes. We had to listen carefully, because after the presentations we had fill out some yellow papers about the jobs they presented us.

## The flow of refugees in Germany

---

Since year-to-date lots of refugees came to Europe, lots of them had a very dangerous way. They came and come from different countries, but most of them came and come from war zones like Syria, Afghanistan, Somalia, Palestine or Iraq. Only three or four countries from Europe take these poor refugees, and Germany is one of the three or four countries.

Since year-to-date Germany has welcomed over 800.000 thousand refugees, and they will take more, but the question is how long can Germany take refugees in this extent. Some of German states like Bavaria can't take more refugees, the refugees accommodations are overflowing, it's a catastrophic situation, the flow of refugees is an ongoing problem! But the federal chancellor Angela Merkel and the minister of the interior from Bavaria have found a solution together. The solution is that in the future the coming refugees will go to other states of Germany, so that Bavaria can put the flow of refugees in order.

A lot of people from Germany help and bring a lot of clothes, shoes, groceries and blankets. They are doing that gladly. A lot of the refugees are well-educated especially these from Syria. The German government wants to send the refugees from Afghanistan back in their country to build their own country, and since the situation of the Syrian refugees is the most difficult of all refugees.

If you want to help, turn to the 'Flüchtlings AG' and talk to Mrs. Lebel.
